

Global Market Access Informative Seminar 2010

Asia Pacific and Latin America

Monday, January 11, 2010
Biltmore Hotel, Santa Clara, California

Regulatory affairs across Asia-Pacific and Latin America region don't always seem to be easy to understand. If you are contemplating obtaining approvals for electrical, electronics products, whether for telecommunications, computing, radio, electronics, household appliances, then you will face some distinct obstacles, for which you need to be prepared. There are several barriers to imported products; distance, language, unfamiliar culture and unsophisticated commercial market conditions can sometimes make this a difficult and expensive procedure. A formidable maze of culture, laws and regulations confronts any company embarking on this venture

The **Informative Seminar** presented by **SIEMIC, INC.** in the United States will cover all about certification process for some major countries in Latin America and Asian Pacific region.

Session I : (9:00 am ~ 12:00 pm)

- South America – Brazil, Chile, Argentina, Colombia, Uruguay, Venezuela.
- Central America - Mexico, Belize
- Middle East and Gulf Countries

Session II : (1:30 pm ~ 4:30 pm)

- China Certification - CCC, SRRC, and MII
- Korea Certification – KCC and KC approvals
- Japan Wireless Approvals

Investment:
